MEET THE

TAGATO

FAMILY

TAGATO GOLD | TAGATO WHITE | TAGATO ORANGE | TAGATO PINK

GOLDEN GENETICS

Easy to grow.
Easy to like.
Not easy to forget.

Sometimes you just know: this is something different. That's how we felt when we selected Tagato. Its large blooms, fresh green centers and distinctive colors won us over right away.

This new family is suited for greenhouse production in 10,5-14 cm pots and planters.
Its compact habit and short 5,5-week response time are added advantages.
Tagato's four colours combine beautifully in mixed pots.
